Mr. Anders Borchgrevink

Brussels, 05 July 2017

Dear Mr. Borchgrevink,

The International Military Sport Council (CISM) is the leading organization in coordinating international military sports federations (ISF member sports).
Thanks to the cooperation of around 50 to 55 Military World Championships each year, all over the world, CISM has also had a major role in the World Summer Games and the World Winter Games (WISG), which are held each 4 years.
The next edition of the WISG will be organized in 2021 by member nation Germany and held in the neighborhood of Hamburg. The most of the military participants are also participating in the WISG.
We need to organize this 4 days event and following September Week 2021.
To avoid conflicts with the ISU calendar 2021, I would like to ask you if you can take into account this period and suggest if you already have planned a major event during that period.
For additional questions you can contact the project manager, Major Tobias Brömm t.broemm@bundeswehr.de, www.bundeswehr.de

Looking forward to hear from you soon,
Sincerely,
Colonel Daniel Brömm d.broemm@bundeswehr.de
CISM Germany General
